

RUN APPAREL

The *paper* & *ink* design system

THE EXTRA MILE | FOR A BETTER TOMORROW | NEVER LOOK BACK

One identity in two lighting conditions — **light** = "The Workshop" (warm paper, ink type, volt stamps) and **dark** = "The Night Shift" (deep olive, off-white type, volt glowing) — with a technical-drawing feel running through both. This is a portable copy for use anywhere. The authority is docs/design/DESIGN.md; if they differ, that file wins.

COLOURS

N°001

Copy the hex codes exactly — never re-pick by eye. All text/background pairs are contrast-verified (readable for low-vision users).

THE SIGNAL COLOUR — SAME IN BOTH MODES

Volt #CDF345

THE accent. Buttons, pills, highlights, stamps. Never as small text on paper — unreadable there.

Volt Deep #5F7414

Use whenever volt-coloured TEXT or thin lines sit on a light background. Readable where plain volt is not.

LIGHT — "THE WORKSHOP" (DEFAULT)

Paper #F1EFEA

The page

Surface #FAF9F6

Cards, panels

Wash #E4E1D8

Image placeholders, soft fills

Ink / text #1D1F1A

All reading text

Muted #63665B

Secondary text

DARK — "THE NIGHT SHIFT"

Base #1C1F18

The page (never pure black)

Surface #23271F

Cards, panels

Wash #2C3126

Nested cards, hovers

Text #ECEBE4

Off-white (never pure white)

Muted #A2A695

Secondary text

HOW THE ACCENT FLIPS BETWEEN MODES

ELEMENT	LIGHT MODE	DARK MODE
Tag / label [LABEL]	Volt block, ink text on top	See-through, volt text
Main button	Ink fill, volt text	Volt fill, ink text
Big headline	Ink	Volt
Serif accent word	Volt Deep	Volt

Both modes are designed on purpose — never make one by simply inverting the other.

TYPOGRAPHY

N° 002

At most two downloaded font families (keeps the site fast). Samples below are shown in a stand-in font; the real families are named in each row.

THE EXTRA *mile*

DISPLAY & BODY — ARCHIVO

Headlines: weight 800–900, UPPERCASE, tight spacing. Body: weight 400–500, ~17px, sentence case, lines ≤ ~60 characters.

SERIF ACCENT — INSTRUMENT SERIF ITALIC

Only 1–2 accent words inside a headline (like *mile* above). Never body text.

[FABRIC] [MOQ] N°001

LABELS & SPECS — SYSTEM MONOSPACE (NO DOWNLOAD)

Bracketed labels, N°00X numbers, spec lists, buttons. Small, UPPERCASE, wide letter-spacing.

REQUEST A QUOTE

VIEW SPECS

Buttons use the monospace label style.

Font licence — open item. A font called **Neue Stance** may one day replace Archivo for headlines only — but **only after** Hateem confirms he owns a commercial web licence for it. Until then the answer is **Archivo everywhere**. (A web licence can cost money, so it's Hateem's decision.)

SHAPE, GRID & MOTION

N° 003

CORNERS

- Cards / panels ≈ 18px
- Buttons / pills ≈ 8px
- Nav pills — fully round

SIGNATURE TEXTURE

- Faint blueprint grid (like the background of this page)
- Garment wireframe drawings for empty / loading / placeholder states
- One dramatic full-width band per page, max

MOVEMENT

- Precise, unhurried, alive
- Quick reactions + soft settles
- Always honour a device's "reduce motion" setting

VOICE & TONE

N° 004

CONTEXT	HOW IT SOUNDS
Social & marketing	Bold, confident, punchy. Short declarative lines. Heritage-meets-innovation.
Sales & partner outreach	Confident but grounded. Warm, consultative — partnership first, not transactional.
Proposals & formal docs	Crisp and professional. Let facts and figures persuade.
Product & catalogue copy	Technical and precise. Spec-driven, with real sensory detail.

Three hard rules. (1) **B2B only** — never "buy / order / checkout"; the action is always **"Request a Quote" (RFQ)**. (2) **Never claim RUN itself is certified** — certifications sit with parent company Durus Industries and RUN's suppliers; RUN is *backed by* a certified supply chain. (3) No empty sustainability buzzwords — always a fact behind the claim.

COMPANY FACTS

N° 005

WHAT	B2B-only apparel manufacturing division of Durus Industries (Pvt) Ltd.
HERITAGE	Roots to 1889; RUN APPAREL established as a division in 2020.
HQ	13 Km Daska Road, Sialkot, 51040, Pakistan.
POSITION	Sustainable · High-Performance · Ethically Manufactured Sports Apparel.

FIVE CATEGORIES (ALL EQUALLY CORE)

- **Team Wear** — cycling, tennis, football, soccer, surf + wetsuit/beachwear line
- **Active Wear** — sports bras, athletic tops & bottoms, full body suits
- **Casual Wear** — T-shirts, polos, sweatshirts, hoodies, tracksuits
- **Outer Wear** — windbreakers, sherpa & puffer jackets, ski wear, leather jackets
- **Sports Accessories** — gloves, weight belts, wristbands, caps, branded gear

THE "DON'T BREAK THESE" LIST

- 01 Use the exact hex codes above — don't re-pick by eye.
- 02 Volt is a **signal**, never the whole design. It accents a paper-and-ink system.
- 03 Never volt text on paper (unreadable) — use **Volt Deep** for volt-coloured text on light.
- 04 Two font families max; **Archivo everywhere** until the Neue Stance licence is confirmed.
- 05 Light and dark are both real designs — never invert one to make the other.
- 06 B2B voice only: **"Request a Quote," never "buy / order."**
- 07 Never say RUN itself is certified.
- 08 Respect "reduce motion."
- 09 In doubt? docs/design/DESIGN.md is the authority; locked values change only on Hateem's call.
